

# Leading the Way with Eco-Tapes

## SB Tape Group, The Sustainable Tape Innovators

ASEAN's largest adhesive tape manufacturer since 1977 with facilities in Malaysia, Vietnam, and Indonesia. Discover our latest Eco-Tapes featuring biodegradable, recycled, and plastic-free options.

Find your sustainable packaging solution now!

### SB Biodegradable Tape

- Made of biodegradable BOPP film as a backing and eco adhesive.
- Conforms to the ASTM D5511 Standard, making it biodegradable in landfills.

### rPET Tape (PCR Film)

- Made of 70%~90% post-consumer recycled (PCR) PET film.
- Its 12mic rPET film can withstand same applications of standard packaging tapes with 25~30 microns BOPP film.

### rBOPP Tape (PIR Film)

- Made of post-industrial recycled (PIR) Film
- The most similar alternative to conventional OPP Packaging tapes yet more sustainable.

### Slim Tape

- Using superior adhesive and reduced material provides a reliable hold and higher cargo load capacity
- Efficient, sustainable, cost-saving and reduces carbon footprint.

### Pick-up Tape

- Lifting tape edge allows for easy removal.
- Improves recyclability and waste segregation.

### Silicone-free Kraft Paper Tape

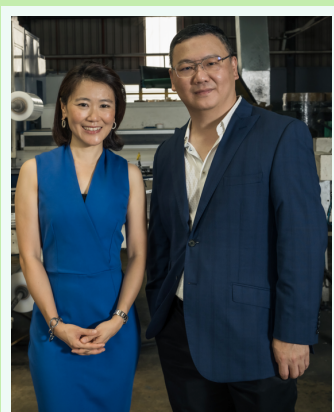

- Writable, plastic-free and recyclable without the need to be removed from carton

### Washi Paper Tape

- Clean removal up to 7, 14, or 30 days (depending on the specific type of tape used).
- Provides a professional paint job with a refined edge
- conforms to uneven surfaces.
